EDUCATION

UNIVERSITY OF THE CUMBERLANDS ***GPA: 3.8***
MS Information Systems Security *Graduation: August 2028*
- Societies: GIAC Advisory Board

UNIVERSITY OF CENTRAL FLORIDA **Cum Laude *GPA: 3.8***
BS Information Technology · Minor Secure Computing and Networks
- Honors: President's & Dean's Honor List
- Societies: Society of Hispanic Professional Engineers (SHPE) · Hack UCF · PTK HIS

CERTIFICATIONS
- GIAC GCIH
- AWS Solutions Architect & Cloud Practitioner
- CompTIA Security+ & Network+

PROFESSIONAL EXPERIENCE

FLORIDA POWER & LIGHT **Juno Beach, Florida**
Full Stack Developer ***February 2025*** *– Current*
- Built API with **AWS Lambda, Postgres, and TypeScript** enabling date-range queries across 8 metrics to drive trend analysis
- Automated app sync and deployments with **Python**, reducing manual work while improving collaboration and version control
- Built navigation features with Mapbox, Google Maps, and compass integration, improving real-time location accuracy and UX

FLORIDA POWER & LIGHT **Juno Beach, Florida**
Cybersecurity Technology Risk Analyst ***August 2025 – February 2025***
- Automated vulnerability scanning workflow with Python/PowerShell, cutting time from 7.6 hrs to 3 mins and saving ~$34K/yr
- Developed an **AI** assistant using **NIST TN 2276** to score phishing emails and generate structured JSON outputs for data analysis
- Sustained low phishing click rates through monthly simulations and user training using custom HTML/CSS email templates
- Conducted 6 third-party cyber risk assessments via **GRC** for critical infrastructure vendors, delivering actionable risk insights

NEXTERA ENERGY RESOURCES **Juno Beach, Florida**
ETRM Cloud / DevOps Engineer *February 2025 – August 2025*
- Optimized cloud resources and costs by analyzing usage, decommissioning, and right-sizing, saving ~$47,000K monthly
- Built and maintained **AWS** infrastructure using **CDK** (**TypeScript**), ensuring consistent and scalable cloud deployments
- Created **YAML**-based **GitHub Actions** workflows to automate **CI/CD AWS** deployments across 5 environments
- Resolved complex performance issues in AWS event-driven architectures using best practices, boosting speed and scalability

UNIVERSITY OF CENTRAL FLORIDA **Orlando, Florida**
TA Coordinator - Computer Architecture *August 2024 – December 2024*
- Created and shared setup instructions for assembly language programming software, supporting 250+ onboarding students
- Led and coordinated team of 4 TAs, sharing key updates and ensuring access to programming resources
- Guided software installation, programming, and debugging, resolving 100% of technical issues efficiently

REAL LIFE **Clermont, Florida**
IT Intern *May 2024 – August 2024*
- Maintained and configured servers with RAID 10 setup achieving 40% increase in data retrieval and improving redundancy
- Managed and maintained 80+ **UniFi** network devices via **cloud controller**, ensuring optimal performance and uptime
- Applied **PoLP** for user account management on **AD** and **Google Admin**, ensuring structured access and permissions

PROJECTS

MYSQL THREE-TIER WEB APP
Java OOP Developer
- Engineered a three-tier web app using servlets, **JSP** on **Tomcat**, optimizing **MySQL** data retrieval via JDBC for clients
- Developed secure authentication and authorization with role-based access and database credential validation
- Created PreparedStatement interface for issuing client user commands to enhance performance and input security

SKILLS

Programming: PowerShell · TypeScript · Python · Java · C++ · C · C# · MySQL· PostgreSQL · Node · HTML · CSS · React.js

Technology: AWS CDK · Selenium · Pandas · Flask · Jinja · Django · RESTful API · NumPy · BeautifulSoup · Bootstrap · JSP · GitHub · Git · Android Studio · Linux · VMs · Active Directory · Microsoft Office · Proofpoint

Languages: English – Fluent, Spanish – Native
